

MULTIGRAB FORK MGG

Application:

The Hauer multigrab fork is a universal attachment for front loaders and mid-sized wheeled / farmyard loaders for handling straw, hay and manure.

Operating principle:

Specified with a massive hydraulic grab, the versatile fork is perfect for a wide range of materials and operations. The massive tines that make up the fork and the grab are mounted in welded conical sleeves. Two hydraulic rams operate the grab and open it to a jaw height of up to 1,300mm.

Advantages:

- Heavy-duty build
- Versatile use
- Large jaw opening

INNOVATION WITH TRADITION FOR LIFE.

Standard specification:

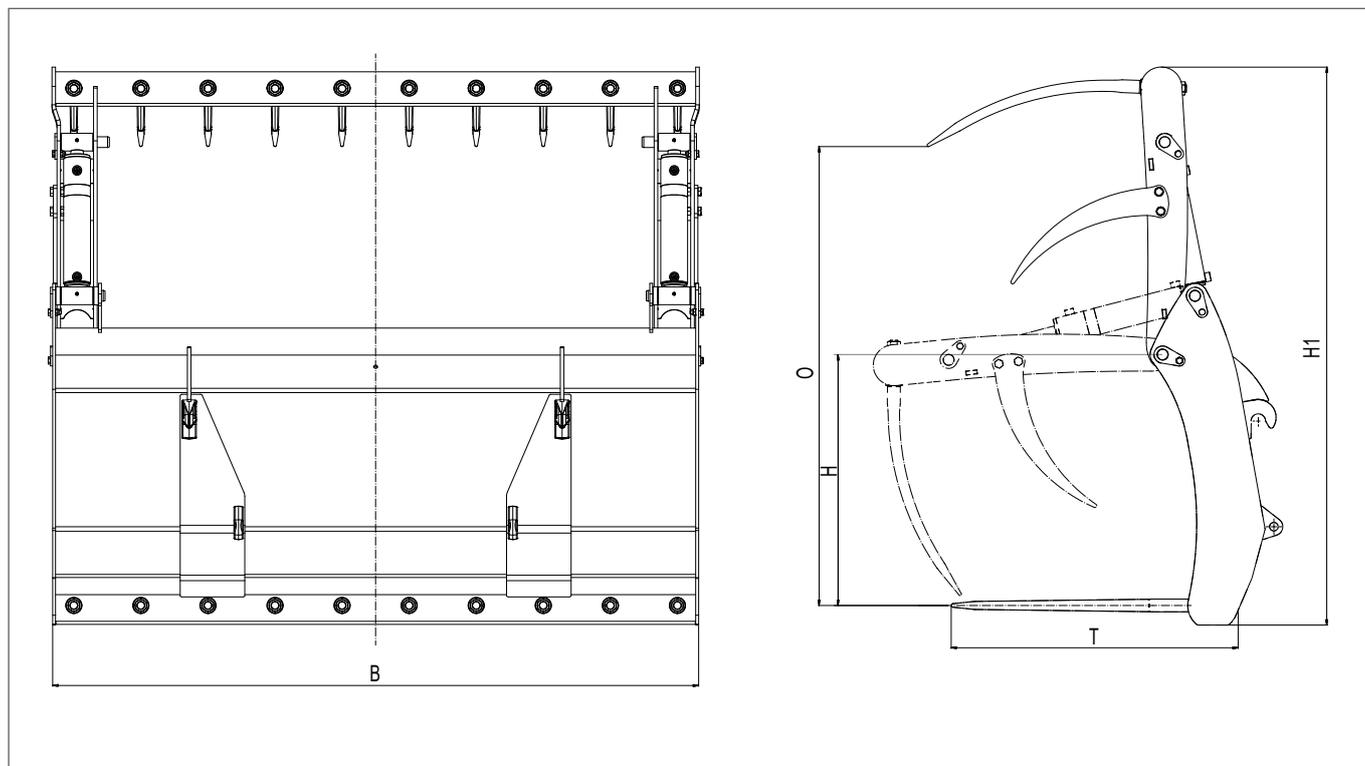

- SWE-EURO or Hauer carriage
- Standard Hauer orange or Hauer matt black paint finish

Options:

- Choice of carriages for many common coupling systems
- Paint finish in all RAL colours
- Pressure relief valve for up to 190bar operating pressures

Technical data:

Width mm	Volume m ³	Weight kg	Nr. of tines	Height H mm	Depth T mm	Max. jaw opening O mm	Height at max opening width H1 mm
1400	0,80	274	8	760	830	1300	1570
1600	0,94	296	9	760	830	1300	1570
1800	1,06	317	10	760	830	1300	1570
2000	1,18	351	11	760	830	1300	1570
2200	1,30	373	12	760	830	1300	1570
