

BALE FORK GBG

Application:

Handling hay and straw bales – round and square

Operating principle:

The fork has two robust tines for handling big bales as standard specification but offers room for fitting up to five tines. All tines are mounted in welded conical sleeves. The sturdy back plate offers maximum stability and has top-mounted stops for handling a stack of two square bales.

Advantages:

- Heavy-duty build
- Tines available in two different lengths
- Specified for fitting up to five tines to handle all types of bales
- Top-mounted bale stop for handling stacks of two square bales

INNOVATION WITH TRADITION FOR LIFE.

Standard specification:

- SWE-B mount (Hauer system) or SWE-Euro mount (Euro Hook)
- Standard Hauer orange or Hauer matt black paint finish
- Two big bales tines

Options:

- Multiple mount options
- Paint finish in all RAL colours
- Tine length 1400mm
- Up to three optional big bale tines

Technical data:

Width B mm	No. of tines	Tine length mm	Height H mm	Depth T mm	Weight kg
1,500	2-5	1,100 / 1,400	790	1,270	88 / 117
